THE FAIR.

As we go to press the local fair is
on and the town is thronged with
visitors from neighboring towns and
communities and the occasion has
been made one for the home coming
of numerous former Hondo people.

The fair opened with a very credit-
able parade, numerous nice floats—
some of them advertising forthcoming
fairs in neighboring towns—being
outstanding features.

There are creditable exhibits in
all of the various departments, dis-
plays that would be creditable to any
county fair. The town is in gala
attire, and pleasure-lovers are find-
ing plenty of entertainment.

Not being in a position, for ob-
vious reasons, to cover all of the
features of the fair in a way to give
each its proper standing in point of
relative importance, we are content-
ing ourselves, in this issue, with a re-
production of the San Antonio Ex-
press report of the initial day's pro-
gram, written by one of that paper's
staff who was sent here for that
purpose.

SCHILLING-DE MONTEL.

The marriage of Lieutenant Karl
Browne Schilling of the 2nd Regiment
Engineers, with Miss Evelyn de Mon-
tel was celebrated at St. John's
Church on Thursday, September 14,
1922, by Rev. F. Pallanche, assisted
by Rev. Ignatius Fealy, Chaplain at
Camp Travis. The ceremony was
witnessed by the relatives and a few
friends.

The newly married couple left after
dinner at the Montel home in an
automobile. They were to board the
train at 11:30 o'clock at San Antonio
for their honeymoon to Wilmington,
Delaware, the home of the groom's
parents, and other points east.

They will make their home at
Camp Travis.

The bride was born and reared in
Hondo and is a graduate of the Hon-
do High School.

This paper joins the friends of
both the young people in congratula-
tions and best wishes.

THE RAIN.

Quite a protracted drouth was
brought to an end last Saturday when
a copious rain visited this section.
While the rain covered but little ter-
ritory it at least rid us of the dust
nuisance and abated the torrid heat
which has prevailed for a month or
more. Again late Sunday afternoon
rain began falling, steadily, gently,
and continued into the night, with
a total precipitation for the two days
aggregating 1.35 inches. While there
is some division of opinion as to the
value of the rain just when it came,
there is but little doubt that it did
more good than injury. Quite a
lot of cotton was still in the fields,
and of course the price will be some-
what impaired by the rain, but the
moisture will prove of inestimable
value to the ranches, which were be-
ginning to feel the effects of the long
dry spell. While but little stock
water resulted from the two rains,
grass and weeds will revive and pas-
tures will be put in better shape for
the winter. Sunday's rain was ac-
companied by a brisk norther, and
if there is any foundation for the
statements of old settlers that if the
first norther is accompanied by rain
a wet winter will follow proves true,
then prosperous conditions may be
looked for the coming year.

Representative-elect A. J. Durham

ling with the throng Thursday.

BE SURE AND VISIT THE LEADER DURING THE FAIR, AND SEE OUR DISPLAY OF NOTIONS, NOVELTIES AND AN EXCLUSIVE LINE OF AUTUMN MILLINERY. THE LEADER.

The Sabinal baseball team annexed the big end of the 3 to 2 score in the first of the three series of games to be played with the Hondo team. The teams met in their first contest at de Montel Park Thursday afternoon.

Dr. Charles Bartholomae, chiropractor, who came to Hondo about a month ago to practice his profession, has returned to his old home in San Antonio, he not considering the outlook for a profitable practice sufficiently encouraging to justify his remaining here.

An outstanding feature of the Fair is the exhibit of the D'Hanis Brick & Tile Co., of D'Hanis. The people of Medina County know in a general way that this company has an inexhaustible supply of ideal brick-making clay. They know that they make a splendid quality of brick from this clay. And they know that they have a plant of large capacity. But it is not generally known the versatility of their plant. At their Fair exhibit is shown in an actual wall both building and face brick of the pretty red shade so peculiar to the brick made from that clay. Their factory has a 40,000 daily capacity for molding these brick. Another product, and one that is destined to play a large part in future building operations is a hollow burnt clay tile. This hollow tiling being larger and lighter than brick permits a more rapid and cheaper construction of the wall, and makes for economy in building. The next thing in economy to the tiling is the hollow, interlocking brick wall, a specimen of which is shown at their exhibit. This mode of construction saves about one-third of the brick required for a solid wall, makes one of equally as good appearance and one that is said to be just as strong as the solid wall. And last but by no means so little as to remain unnoticed is the pottery that is being made. All kinds of water coolers, flower vases and other articles of the potter's art, fashioned as skillfully as any that ever adorned an ancient Aztec temple, are made by this company. Do not fail to see this interesting exhibit.

To Fritz Schweers, as far as we are advised, belongs the distinction of being the first to wrestle with a case of dengue fever. It is altogether probable, however, that he will have lots of followers, as this malady is sweeping over the state. If you get it don't be alarmed. It will make you feel meaner than you ever felt in your life, but we do not think that such a thing as a fatal case is known to the medical fraternity.

The Hondo and Yancey basketball girls will stage a game on College Square at 5 o'clock this afternoon (Saturday.) These two teams have long been rivals and a spirited contest may be looked for. Yancey has long boasted a strong team, and if you are for the Hondo team come out and root. They are going up against a hard contest and will need all the encouragement you can give them.

When the case of L. O. Johnson was called for trial here Wednesday on a charge of failure to dip his cattle, defendant pleaded guilty and was fined \$25 and costs, a total of \$43.15.

HONDO FAIR OPENS WITH CORONATION.

Miss Norma Rothe is Crowned Queen of Roses.

Staff Special to the Express. Hondo, Tex., September 14.—The first annual Medina County Fair opened its gates to the public this morning in this, the capital city of the county. The enterprising business men and citizens generally of Hondo City and of Medina County, with the loyalty and spirit of progress and achievement which is characteristic of them, conceived the idea of putting their bi-annual more conspicuously on the map and at the same time to encourage such efforts on the part of producers, decided to organize the Medina County Fair Association, with W. N. Saathoff as president and C. M. Merritt as secretary-treasurer, and the following board of directors: Felix Batot, C. J. Bless, John M. Finger, George Muennink and William Holloway.

Having determined to have a county fair, the next thing was to make it worth while, a credit to the town and to the county and to all who were engaged in promoting it, and to that end no expense of money, time or effort was spared. Men, women and boys and girls joined their efforts to give to the undertaking every aspect of attractiveness that talent and ingenuity could suggest within the range of practicability. And so, early in the preparatory program it was announced that Hondo, the city of sunshine and happiness, would crown the Queen of the Medina County Fair, and as mystery somehow adds zest to an occasion of this sort, it was decided that the identity of the Queen and the personnel of her royal court should remain a secret until the time for the coronation. Now the cat is out of the bag.

The Queen and her imperial court led the grand cavalcade of chariots, decorated floats and other equipages to the gates of the fair, and there the coronation took place in the midst of throngs of loyal subjects and visitors to the fair. It was an auspicious opening of the initial enterprise, which bids fair to become a permanently established institution of the city of Hondo and the County of Medina, as County Judge Noonan declared in his address preceding the crowning of the Queen.

The spectacular parade and coronation ceremonies were the features of the first day of the fair. There were several beautifully decorated floats in the parade, besides that occupied by the Queen of Roses, Miss Norma Rothe, and her royal court, consisting of Misses Loraine Heath, Irene Saathoff, Hazel Brown, Willa Mae Gaines, Evelyn Wilson and Ruth Windrow, and His Majesty the King, Andrew Bless. In one of the hand-somest, that entered by the local post of the American Legion, was enthroned the American Legion Queen, Miss Octavia Davis, surrounded by her retinue. Others that rivaled in beauty the royal equipages were entries from D'Hanis, Sabinal and Riomedina. All of these competed for prizes, and the judges found it difficult to decide between them, but finally declared in favor of the float in which rode the Queen of Roses as first, the American Legion second, and "Roseland" from Riomedina as third.

The Queen's ball will be given on the evening of the last day of the fair, Saturday, when there will be interpretative dancing preceding the general indulgences. The exhibits were not all in place when the visitors began to pour into the fair grounds, but there was a good display in each of the several departments, and an active promise of more complete displays before the close of the day, and the competitive exhibits will be ready for the attention of the judges by tomorrow morning. There were sports by the cow-boys in riding cattle and broncos and breaking calves, and there probably will be races tomorrow. In the baseball game between Hondo and Sabinal the latter won by a score of 3 to 2.—San Antonio Express.

MRS. E. H. SCHMIDT

Another old and greatly respected citizen of Medina county, Mrs. E. H. Schmidt fell asleep home of her daughter, Mrs. Schmidt, in Hondo, at 2:30 last Monday morning, September 11.

Mrs. Schmidt, nee Anna, was a native of Medina county, born about five miles east of Groverville June 27, 1854, and her entire life within the county; she was married, September 14, 1872, to E. H. Schmidt, children were born to the daughters, Mrs. Dirk Linde, Mrs. Arnold Wurzbach, Mrs. Schweers and Mrs. Louis J. two sons, William and Otto, all of whom, together with her band, survive her. Deceased survived by five grandchildren.

One by one, and all the old residents of the county, sing, and their passing is a loss to all our people. Those who suffered the hardships incident to life on the frontier will linger with a fond memory.

Gently and amid the tributes and life-long friends was laid to rest in the Quinlan Tuesday morning at 11 o'clock. J. J. Weiss and A. Falkenstein of the Lutheran Church, officiating services both at the Mr. and Mrs. L. J. Schmidt the grave. The mound that the last resting place of was hidden beneath a profusion of flowers, attesting to the team of those left behind.

That a benign Heaven will comfort and console the ones in their great bereavement the hope and prayer of all.—[only 50c more]—DEEDS.

Making 20 Years of Racing Serve Car Owners Today

IN the early days of automobile contests, Barney Oldfield—out to win every race—studied tires. His consistent success led other drivers to ask for tires constructed to his specifications.

Twenty years of road and track victories—with a steady and increasing demand for tires as he built them—convinced Barney Oldfield that these speed tests pointed the way to a better tire for everyday use.

The enthusiastic reception of Oldfield Cords by the public proved he was right. Scores of the most prominent dealers in the country—and many thousands of car owners, experienced in the use of tires—bear witness by their decided preference that Oldfield is doing a bigger and better job of tire making.

This volume, handled in an effective way in every phase of manufac-

ture and distribution, has resulted in price quotations far below what you'd expect on tires known to be better built and more enduring.

Practically every important race event for three years has been won on Oldfields. The Wichita Test Run in which an entire set of Oldfield Cords covered 34,525 miles on rough roads proves the mettle of the Most Trustworthy Tires Built in everyday driving.

The Master Driver and Tire Builder has given the public a new standard of tire wear and tire cost—a true economy that every car owner should know about.

Your Oldfield dealer has these facts—talk to him.

ROADS STAND BY LOYAL EMPLOYEES

Tell President Harding Old and New Men Must Be Protected in Strike Settlement.

NOT A MATTER OF CHOICE

Faithful Employees Have Both Legal and Moral Rights to Seniority and Other Benefits.

New York.—The keynote of the reply made by railway executives representing more than 180,000 Class I Railroads of the United States to the proposition of President Harding, that "all strikers be returned to their work and their former positions with seniority and other rights unimpaired," lies in the last paragraph of their reply to the President as follows:

"It is submitted that the striking former employees cannot be given preference to employees at present in the service without doing violence to every principle of right and justice involved in this matter, and without the grossest breach of faith on the part of the railroads to the men at present in their service."

"Under these circumstances, it becomes apparent that the railroads cannot consider any settlement of the present strike which does not provide protection in their present employment both to the loyal employees who remained in the service and to the new employees entering it."

The executives had accepted the first two conditions proposed by the President, namely, that both employees and employers accept the decisions of the Labor Board, and that all law suits growing out of the strike be withdrawn; and in relation to the third condition spoke not only as quoted above, but also as follows:

Agree With the President
"The railroad executives and managers agree entirely with the President's statement in his letter that 'it is wholly unthinkable that the Railroad Labor Board can be made a useful agency of the Government in maintaining industrial peace in the railway service unless employers and workers are both prompt and unquestioning in their acceptance of its decisions.'"

"Many men in the service refused to join the strike and in so doing were assured of the seniority rights accruing to them and of the permanence of their positions. On some important lines 50 per cent or more refused to join the strike. To these old loyal employees have been added thousands of new men who were employed and could be secured only upon a definite promise that their services would be retained regardless of the settlement of the strike, with all the rights pertaining to such employment, including that of seniority under the working rules and regulations previously approved by the Railroad Labor Board."

"Just the Opposite Effect"
"We especially point out that a refusal to the old men who remained in the service and to the new men who accepted service of the rights of seniority incident to their employment would have just the opposite effect to that desired by the President, and would most seriously discredit the Labor Board."

"The board itself prescribed the rules of seniority under which the men referred to have secured their seniority rights, and the railroad companies have neither the legal nor moral right to deprive these men of those rights. By public utterances since the strike began the board has recognized and emphasized these rights, and to deny them now would, instead of upholding the authority of the Labor Board, overthrow its rules and discredit its authority."

"The Chairman of the Labor Board at the time the strike was called made the following public statement:

"Upon one question the striking employees should not be deceived. Their leader has said that the strikers are no longer employees of the railroads, and they have thus automatically abandoned all the rights they possess under their agreements and under the decisions of the board, including their seniority. This is not the board's action. It is their own."

"Many carriers are giving their former employees the opportunity to re-enter the service within a limited time. It must be understood now that men who remained in the service and those who are now entering it will have rights of seniority that the board could not ignore."

What the Proposed Plan Means
"It must be understood that any proposal that employees now on strike shall be permitted to return to the service, without impairment to their seniority, is merely another way of suggesting that those men who took employment in this crisis in good faith, relying on the promises of the railroads to protect them in their positions, these promises being justified by the authoritative utterances of the Labor Board, and thus have made possible the continued operation of the railroads, shall now be sacrificed in favor of men now on strike, who not only brought about the crisis, but, by their own action and declaration, are no longer employees of the railroads, under the jurisdiction of the United States Railroad Labor Board, or subject to the application of the Transportation act."

"In addition to the necessity of upholding the Labor Board, and maintaining the pledges made by the railroads to the men now at work, there is the practical effect on the supervisory officers of a violation of the pledges they were authorized to make. Their discouragement and demoralization would be far more disastrous than this or any other strike."

HATCHERY WOULD SUPPLY 200,000 FISH TO MEDINA.

As soon as word from Fish Commissioner Henry O'Malley, head of the National Bureau of Fisheries, is received stating that the intention of the bureau with regard to the proposed maintenance of a hatchery for young bass at Medina Lake, Hugh R. Robertson, receiver for the Medina Lake properties, will submit both the letter of the commissioner and the filed notes and plot showing the proposed location of the hatchery, to the bondholders of the property, he said last night.

Mr. Robertson said that W. H. Furlong, Chamber of Commerce highway department secretary, in his efforts to push the matter, has succeeded in getting all the necessary local work done in connection with the establishment of the proposed black bass hatchery, and that now it remains for him to take up the matter with the Medina property bondholders. This will take some time, Mr. Robertson said, since the men whose consent is to be gained are widely scattered—some in New York, some in Canada, and others in New England.

A survey and blueprint of the two or three acres of land just below the big dam on the west side of the Medina river was made by Herbert Scott, assistant city engineer. The plot shows the location of the pits which will contain the fish, the place selected being between the big dam and the spillway stream which empties into the Medina River a short distance below the dam.

Mr. Furlong said that Ray Lambert, commissioner of parks, has inspected the proposed site for the fisheries, and that in his opinion the location has vast possibilities. He said according to Mr. Furlong, that the soil is unusually rich and the luxuriant growth found there indicates that the place may be made a beauty spot which may in time rival the Sunken Garden of Brackenridge Park. "Mr. Lambert will advise with us about the beautifying of the place, and as it is Mr. Robertson's desire that it be made as attractive as possible, we expect to make it indeed a beauty spot if the owners of the property consent to its sale," Mr. Furlong said.

If the bondholders of the Medina irrigation companies consent to the sale of the small strip of land, Mr. Robertson, as receiver, will apply to the Federal Court immediately for an order authorizing him to convey the land, and it may be possible for the entire matter to be consummated before the first of the year, he said yesterday.

The project has been a "pet hobby" of Mr. Furlong's for several years, and all the San Antonio men owning camp sites on the Medina Lake are eager for it to go through, since it will supply the lake with from 125,000 to 200,000 young fish every year, and will insure Medina Lake an unrivaled position as the bass-fishing resort of the South, according to Mr. Furlong.

Local men have agreed to give the money for the purchase of the land, after which the property will be turned over to the Government Bureau of Fisheries, which will bear all further expense of propagation of the fish and care of the property.—Tuesday's Express.

FLETCHERIZED FARM FACTS

October Farming will come from the press next week.

The October number will be fully up to the standard set by preceding issues—and then some.

Col. R. R. Claridge comes strong with his rapid-fire comments on things in general but more particularly agricultural. You do not want to miss this feature, for Farming is the only paper in the world where his writing can be found, and once enjoyed you will be as anxious for the next installment as a dogie steer is for its next salting.

Messrs. J. H. Burkett and E. W. Cole each contribute valuable suggestions to the pecan men, the one along the lines of pecan propagation and the other marketing. And each of them are experts in their particular lines, and what they write is authoritative.

Commissioner Geo. B. Terrell discusses the cotton market in a brief but comprehensive way.

Uncle Sam Neel comes in with his regular feature—a feature that every student of gariculture will read with both pleasure and profit.

Miss Leiter discusses in a most timely manner the school boy's lunch. This one article alone is worth the price of a year's subscription to the tired mother with a bunch of hungry school children to feed.

But an illustrated feature in which the housewives are going to be especially interested in is added to Farming this issue for the first time. But there—we must not give the secret away. We are keeping it for a glad surprise for the women among Farming's Folks. Send in

your subscription now in time to be one of us with the October number.

The editor covers all of his features in the usual way and there will be other selections including pictures and timely advertising with helpful trading suggestions that will make the October number worth many times its cost to any one.

You will subscribe for Farming eventually any way. Why not now and get the earlier issues? A year's subscription when taken with this paper costs you only fifty cents. Think of it! The price of two gallons of gasoline or a couple of bottles of near beer gets Farming for a whole year!

Don't delay longer.

Just say to us by word of mouth or letter—

"Send me Farming."

And we will do the rest.

Say it today.

And "give us the flowers now."

A Wish

"I HAVE TAKEN Cardui for run-down, worn-out condition, nervousness and sleeplessness, and I was weak too," says Mrs. Silvie Estes, of Jennings, Okla. "Cardui did me just lots of good—so much that I gave it to my daughter. She complained of a soreness in her sides and back. She took three bottles of Cardui and her condition was much better."

"We have lived here, near Jennings, for 26 years, and now we have our own home in town. I have had to work pretty hard, as this country wasn't built up, and it made it hard on us."

"I WISH I could tell weak women of Cardui—the medicine that helped give me the strength to go on and do my work." This card fulfils her wish.

FUNDAMENTAL REVELATION
in
DRAMATIC SYMBOL.

By Rev. J. T. Horger.

Noah's Ark and Its Contents

Noah's flood, according to Bible chronology which, without doubt, is the best TIME COUNT in the world, occurred about 1,150 years after the creation of Adam. This flood is the greatest on record of the many illustrative demonstrations of God's retributive judgments against sin and the impenitent sinner.

And inasmuch as the method by which a soul is saved is one of JUDGMENT, that is, the EXECUTIVE power of the holy spirit is brought to bear, casting them out, thus delivering the soul from the powers of death and destruction. God ordained the flood and commanded Noah to build the Ark, not only to reveal His fiery indignation against sin and the impenitent, but also to illustrate in this marvelous symbolic drama, certain fundamental constitutional principles of salvation by which men are to be saved from sin and be prepared for service, all to the honor and glory of the triune God and the everlasting happiness and joy of man on earth and in Heaven for ever and ever.

Therefore, while He set forth His executive power against sin and corruption by the absolute destruction of all the wicked of the earth, on the other hand, He set forth the principles of redemption in the constitutional form of the Ark and its contents and happenings.

Just here I will say that great preachers and eminent writers have held that Noah's Ark was a type of Christ; to which I answer, that in a vague and indefinite sense, that interpretation may be true.

But a hundred fold better interpretation of the symbolic significance of the Ark is that it represented the WHOLE PLAN OF REDEMPTION.

Now let us turn to Gen. 6:15 and 16, and read: "And THIS IS THE FASHION on which thou shalt make it of" * * * "A WINDOW shalt thou make to the Ark" * * * "And the door of the Ark shalt thou set in the side thereof" * * * "With LOWER, SECOND and THIRD stories SHALT THOU MAKE IT."

With reference to the fact that God strictly charged Noah to build the Ark after the fashion which He had shown him, it is peculiarly significant that when God would have Moses to make the Tabernacle and its appurtenances, that in Ex. 25:9 we read, "According to all that I shew thee after the PATTERN of the Tabernacle, and the PATTERN of all the instruments thereof, EVEN SO SHALL YE MAKE IT."

By turning to 1 Chr. 28:11, 12, we find that David gave to Solomon the PATTERN of the Temple, its departments and implements of service, "OF ALL HE HAD BY THE SPIRIT."

Now we read in Heb. 9:23 that these were PATTERNS of Heavenly things, that is, SPIRITUAL things. In other words, the outlines of Noah's ARK, the TABERNACLE, and the TEMPLE, being approximately the same in principle, were given by Jehovah to typify, to reveal, and drive home to the hearts of men the immutable and unchangeable process of the salvation of a human soul.

And what is that process? It is found in the words of the Lord to Noah: "With LOWER, SECOND, and THIRD stories shalt thou make it." Yes, just THREE stories high. The LOWER to represent the dispensation of the Father, the SECOND the dispensation of the Son, and the THIRD the dispensation of the Holy Ghost.

Now, we ask that we may once more explain what we mean by the THREE dispensations. If the reader should feel that we too often repeat ourselves, at this point, we answer that God has repeated Himself in His word, "line upon line, line upon line," "precept upon precept and precept upon precept, here a little and there a little," that your soul might receive the knowledge of eternal life through the virtue of the blood of Christ. Therefore, WE

REPEAT, that from the earliest dawn of our existence until we acquire a knowledge of right and wrong, we are under the Father's creative power and tender care, and from thence, we are under the law, in whatever proportion, from time to time, we learn His commandments and know His will. And just as it is unfolded in the scriptures in general, even so it is with each individual, namely, that together with the receiving of the law, there is also the index finger of prophesy pointing the soul to the coming of a saviour, not to come to the world at large, but to your heart individually; on the condition that you truly repent of your sins—"For all have sinned" says the word.

Now, when we thoroughly repent of having violated the moral law, and deep down in our hearts submit to, and freely accept its principles as a whole, we then and there reach the climax of the Father's dispensation, namely, the incarnation of the law of righteousness is the soul, which is confirmed within the soul only by our belief in, and the acceptance of the atoning sacrifice of Christ in order for the forgiveness of our sin, which is a matter of the violation of the moral law, by which act of faith we also receive the spirit of Christ, the SECOND PERSON of the Godhead, which is the spirit of righteousness implanted in the soul whereby the moral law, previously accepted, becomes a LIVING moral principle within. Thus the soul passes through the Father's dispensation, into the dispensation of the Son, and is thereby truly born of the spirit, and is in the regenerate state, and is a son or daughter of God upon the merit and virtue of the blood of Jesus Christ, through the act of the Holy Ghost.

But let no one make the mistake to suppose that to be born of the spirit, which is to receive the spirit of Christ, the second person of the Trinity, is the same as to be baptized with the Holy Ghost; that is, to receive and have the holy spirit enthroned within. BIRTH can never be the synonym of BAPTISM. However, when the soul is born of the spirit, we should then join the Church, leaving off all manner of sin and evil practices, avoiding the very appearance of evil; and to take up all manner of righteousness and good works, and to attend church, Sunday school and prayer meeting, reading God's word and other good, pure and wholesome literature, thus putting the "old man"—the carnal mind—which, according to scripture, remains in the MERELY regenerate heart, on the cross, there to bleed and die.

And say, Brother, Sister, DON'T feed him on a little fashionable sin and a few drafts of ungodly revelry and worldliness three to five times per week; if you do, he'll never die, but the new born nature, Christ in you the hope of glory, will disappear; and the "OLD MAN" will be found again upon the throne of your soul, running things after the will of his father, the Devil.

But, if we keep this "old man," which is often called "SELF," on the cross, and constantly feed the "NEW MAN," Christ in you, on the bread that came down from Heaven, and often have him quench his thirst at the Fountain of Life, you'll grow in grace and experimental knowledge of salvation, from month to month, and from year to year. And in this condition, you will find yourself HUNGERING and THIRSTING after righteousness; especially for the baptism of the Holy Ghost and fire, which purges out the remains of the "old man," and enthrones the Holy Ghost, the THIRD person of the Trinity, in the soul; by which St. Paul says, "The love of God is shed abroad in our hearts by the Holy Ghost which is given to us." When is he given to us? Never until we believe in Him, and His peculiar dispensation of sanctifying love. Yea, we must believe in His coming into our hearts, and seek Him with the whole heart, by a supreme consecration, fasting and prayer, earnest, honest, constant and persistent prayer, coupled with an unwavering faith that the Holy Ghost, who "shall come, WILL come, and will tarry."

Yes, believe that He will NOW come into our hearts, and will thoroughly PURGE, SANCTIFY the heart, gathering the wheat into the garner (but burning the chaff with unquenchable fire).

Say, dear reader, do you believe this fundamental truth? Did you ever hunger and thirst after this crowning grace of redeeming love? "This is the will of God, even your sanctification." First Thes. 4:3. Then said He, "So, I came to do the WILL of God * * * by the which WILL we are sanctified." Heb. 10: 9, 10.

As per above, we enter into the third dispensation of our redemption. Trusting that the reader will now clearly understand our position on the THREE dispensations of Grace, we now turn to 1st Peter 3:21 and there find that he saw in Noah's Ark a FIGURE of the plan and process of salvation.

A USEFUL PAIN

Hondo People Should Heed Its Warning.

Have you a sharp pain or a dull ache across the small of your back? Do you realize that it's often a timely sign of kidney weakness? Prompt treatment is a safeguard against more serious kidney troubles. Use Doan's Kidney Pills. Profit by a Hondo resident's experience.

W. A. Mask, engineer, says: "I found Doan's Kidney Pills to be an A-1 remedy for kidney trouble. My back was sore and my kidneys acted irregularly. I felt tired, worn out and had no ambition to do anything. I had a dull pain in my kidneys day and night. I heard of Doan's Kidney Pills and tried them. One box of Doan's cured my back and I have had no trouble with my kidneys since."

We have already stated in the early part of this article that the dominating feature of the "FASHION," or "PATTERN" of the Ark was to be THREE stories high, a LOWER, SECOND and THIRD story.

Now, we are told in the word that there were THREE kinds of creatures in the Ark. The "UNCLEAN" and the "CLEAN" of the animals, and NOAH and his family, the redeemed of the Lord, whom, according to other symbols given in scriptures to teach authentically the same truth, we classify, VERY clean. That is, the truly sanctified of the Lord. We note that these THREE conditions of the inmates of the Ark correspond in TRIO and outline to the sons of Adam, which drama we discussed in two articles prior to this symbol; and that they will be found to harmonize with several other Trio Figures which God has given, and we hope to discuss in articles to come. What we want the reader to see is, just as Cain was wicked and unclean, and therefore, not accepted of the Lord, just so in the Ark, there were the unclean which were not acceptable in sacrificial service to God. Which sets forth in type the fact that the unsaved sinner, though under the Father's tender care, is unclean in the eyes of Jehovah, and cannot be accepted in service to God. The scriptures hold that the unsaved are not only unclean, but void of Divine life, having only the natural human life, which is the lowest life possesses by man, and as we have plainly shown that such are in the Father's dispensation, and that the Father's dispensation is the first, and is over man in his lowest sphere of life, and that the Ark was a type of the whole scheme of redemption, therefore, we reasonably conclude that the unclean beast, representing the unsaved, were in the first, the LOWER, story of the Ark. Thus setting forth, by this wonderful symbol the fact that "God so loved the world, that He gave His only begotten son," that He might consummate a plan of salvation, which would include the unsaved, though unclean, in the lower story, the Father's dispensation, thus securing to them the privilege, that by faith and obedience, they might, by grace, move from the lower, into the second story, the Son's dispensation; viz: be regenerated, born of the spirit, thus becoming the children of God. "The spirit itself bearing witness with our spirit, that we are the children of God: and if children, then heirs: heirs of God, and JOINT heirs with Christ; IF SO BE that we SUFFER with Him, that we may also be GLORIFIED TOGETHER." Heirs to what? We answer to the gift of the Holy Ghost in His sanctifying power. How shall we receive Him? Again we answer, by being crucified to the world, and the world to us; thus suffering with Him, as the above quotation teaches, saying, "If so be that we SUFFER with Him that we also may be GLORIFIED together." The words "glorified together" simply mean that just as He was clothed with Divine power ever after the Holy Ghost descended upon Him immediately after His Baptism by John the Baptist, even so we may receive our inheritance, being a joint heir with Him, receive the Holy Ghost just as He did, and be glorified like as He, with the adorning glory of perfect love—a living, burning, holy zeal. "Herein is our love made perfect" * * * "because as He is, so are we in this world." 1 John 4:17.

The readers may feel that we have lost sight of Noah's Ark, but the few last sentences above are flashlights into the THIRD story. But this chapter has grown too long. We will, D. V., write another on the Ark and its contents.

"Now Mother Markets by Motor—"

WOMEN who have never driven cars before, find, to their surprise, that everything about an Overland Sedan is remarkably simple. The driver's seat is comfortable. The gears shift easily. Steering becomes second nature.

Thousands of women who are driving Overland Sedans wonder how they ever got along without them. The Overland makes the fresh produce of the farm as accessible as the corner grocery. Shopping, too, becomes a pleasure instead of a hardship.

For real quality, comfort, style and all-round performance, the Overland Sedan is without question "the greatest motor car value in America."

DEVINE NEWSLETS.

From The Devine News.

Has 1,000 Pounds Onion Seed Here.

Farmers are going heavy on truck and onions on the irrigated lands here this fall and winter. C. H. Melton has just received 1,000 pounds of Crystal Wax onion seeds. Just think of how many seeds there are in a pound of these seeds and multiply this by 1,000 pounds and you can see just how big this order really is.

W. B. Hobson is not discouraged over the business but is going into it strong again. He has moved into town for the benefit of the school and is identifying himself with us in the school and every good work.

And there are others whose names we have not got yet, who are going in the truck business good and strong since the big company is going to furnish water from the big dam for all the land that can be used for truck.

Booked Order for 25,000 Letter Heads.

The biggest order for letter heads ever booked in this shop was not from a bank or a department store, but from a farmer, C. H. Melton, who placed an order with us for 25,000 letter heads on 24 lb. Hammermill paper and our jobber is now turning them out. Ten thousand of these are to have type written letter (type-writer type) on them. The business that uses this is conducted upon about 200 acres of Devine soil which a few years ago did not pay interest and taxes above the labor expended on it. This shows that brains mixed with th soil is a safer investment than in merchandise for department stores, and that farming is not a lost art, or a bankrupt proposition. A few deep wells with engines is the secret. We have literally thousands of acres about Devine with water rights connected, which make this a veritable winter garden.

Devine Captures County School Meet.

By a vote of 39 to 36, Devine captured the Medina County School Meet, which was voted on at the Institute. We should be sure and have our new auditorium finished by that time—next Spring.

Twelve Hundred Bales Have Reached Town.

A total of 925 bales have been ginned in town, between 300 and 400 at Big Foot and nearly 100 at Biry. 861 bales had been shipped from the Devine depot up to Tuesday night, and our insurance agency had written on \$17,000 worth on the gin yards, being held. It was selling at above 20 cents Tuesday afternoon, but many are holding. Corn prices are up to 50 cents in shuck at elevator.

Says Yancey Road Will Be Improved.

In a telephone message to M. A. Keller this week, County Judge R. J. Noonan assured him that the Yancey road west of the Hondo will be improved, with a cut off missing some of the larger hills and somewhat straightening the road. Mr. Price of Adams Company, who owns the land west of the creek, wants the road which effects his lands more than any other perhaps. Let's all boost for the road.

Will Be Here Saturday To Boost Cream Route.

Dr. Barnes of San Antonio has promised to be here Saturday to meet the dairymen in the interest of the proposed cream route from Devine to San Antonio. Mr. Braendle has rented a home here we understand, and will soon be ready to start his truck.

The Devine country has made a good corn and hay crop; we have peas, pigs, poultry and potatoes, and moving on towards the 2,000 bale mark in cotton. Things are by no means booming here, but when we remember that the republicans are in power and worst is yet to come, we kiss the rod that smites us and are thankful it is no worse.

Mill Changed Hands This Week.

T. J. O'Neal, who has operated a grist mill here for a number of years, has sold the mill to his son, Clyde, who will move the same to his newly purchased home, the old Perkins place, in South Devine. Clyde's connection with his father for all these years qualifies him for operating the mill to a success.

Nice Rain and Cooler.

A nice shower fell here Saturday evening and again Sunday afternoon and night, a slow rain prevailing for an hour or more, wetting the top of the earth, which had become exceedingly dry from a three months' continuous drouth. The rain Sunday night was accompanied by a sharp norther and the summer heat seems broken. The showers were gentle and did not damage crops.

Mr. and Mrs. Leo Bohl, after a few days here looking after business, will return to the Kerrville country for some two months for his wife's

health, which has been improving by spending the summer there.

Judge H. E. Haass of Hondo, ex-county judge and candidate for that office, spent a couple of days in the Devine section talking to voters.

Mr. and Mrs. Frank Hoag and family of San Antonio spent Sunday with her brother, Geo. Kempf, and family.

John Poerner says about ten bales of cotton and plenty of corn, hay, etc., may seem a little short, but the price of cotton has helped and he will pull through. John always gets through in good shape.

Mr. and Mrs. E. J. Balmos visited in D'Hanis last Sunday.

CITATION BY PUBLICATION.

THE STATE OF TEXAS.

To the Sheriff or any Constable of Medina County, Greeting:

YOU ARE HEREBY COMMANDED to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Medina County, a copy of the following notice:

THE STATE OF TEXAS

To all persons interested in the Estate of Mrs. Lizzie Renken Haass, Deceased: Herman H. Haass has filed in the County Court of Medina County, an application for the Probate of the last Will and Testament of said Mrs. Lizzie Renken Haass, Deceased, filed with said application, and for Letters Testamentary of the Estate of Mrs. Lizzie Renken Haass, Deceased, which will be heard at the next term of said Court, commencing on the first Monday in October, A. D. 1922, the same being the 2nd day of October, A. D. 1922, at the Court House thereof, in Hondo, Texas, at which time all persons interested in said Estate may appear and contest said application, should they desire to do so.

HEREIN FAIL NOT, but have you before said Court on the said first day of the next term thereof this Writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Hondo, Texas, this 15th day of September, A. D. 1922.

(L. S.) S. A. JUNGMAN,
Clerk County Court Medina County, Texas.

A TONIC

Grove's Tasteless Chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

Grove's Tasteless Chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood seeds QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 60c.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a general strengthening tonic to the whole system. Nature will then throw off or diaphor the worms, and the child will be in perfect health. Pleasant to take. 75c per bottle.

JOHN ROBINSON'S CIRCUS HAS STOOD THE "TEST OF TIME."

John Robinson's circus, bigger, better and more entertaining than ever, will appear in San Antonio on Saturday, September 23, giving two performances, full and complete, and also a free street parade of more than a mile in length.

The John Robinson circus is the only one in the world that has stood the test of time, being first organized in Utica, N. Y., in 1823 and it is now making its ninety-ninth annual tour of the North American continent. The fourth generation of the famous Robinson family is now managing the oldest white top organization in the universe.

This show is one of the wonders of the age as regards system. "A place for everything and everything in its place" is an adage as old as the race but despite its age, it is just as sweeping and effective today as it was on the date of its origin. It's an adage that John Robinson puts into effect around his huge amusement enterprise.

On the John Robinson show there is a place for everything and when the big show packs for a move, everything must be in its place, and before the move is started. When night falls and the big crew begins to drift toward the railroad cars, every man has a certain duty outlined for him and he does nothing else than that which he is employed to do. Every wagon, every pole and every stake—regardless of size—has a resting place, and as though it were a gigantic puzzle, the general result does not work out properly unless each unit has been correctly cared for. Unless the order of "a place for everything and everything in its place" were strictly adhered to there would be general pandemonium with its resultant risks and loss of time and money. Some big successes have been built on lessons involved in time honored adages.
